

INNOVATIONSEEDS

THEMATIC PRIORITY

Interactive portal for environmental research and knowledge repackages 100 promising EU-funded environmental R&D results to accelerate their uptake as policy measures and market success.

PROJECT FUNDING

No project funding

DESCRIPTION

InnovationSeeds seeks to change this by communicating research results in a usable manner to policy makers and industry stakeholders. It facilitates connections between researchers, policy makers, engineers and business experts to boost Europe's performance in the ever-growing green sector. Eco-innovation stakeholders can obtain a full range of services and the interactive platform allows research teams, policy makers and technology providers and users to access and communicate about new eco-innovative technologies and knowledge.

Objectives:

Helps research teams, policy makers and technology users identify and communicate about new eco-innovative technology and knowledge. Dedicated articles, webinars, and video news releases promote new environmental technology and knowledge to policy makers and market players. An intelligent navigation system has also been designed to guide SMEs to the most appropriate public and private funding for eco-innovation projects.

ACTIVITY SUMMARY

InnovationSeeds (official project name, 'ECO-PRO') is supported by the European Commission under the 7th Framework Programme and co-ordinated by Greenovate! Europe

START & END DATES

28.09. 2012
