Description:

Europe INNOVA is the main pan-European platform for innovation professionals. Europe INNOVA offers a sound analysis and mapping of sectoral innovation and identifies sectoral barriers to, and opportunities for innovation, listening to the needs and recommendations of European businesses and innovation professionals.

Main aims:

- Support all forms of innovation;
- Exploit Europe's innovation potential
- Identify and analyse drivers and barriers to innovation
- Laboratory for the development and testing of new tools and instruments in support of innovation
- Contribute to a better understanding of the innovation patterns in different sectors all over Europe.

Europe INNOVA will be driven by innovation agencies and other public or private innovation support providers that are interested in working together in partnerships to search for new forms of innovation support at European level.
